REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: **the specific limitations of** "a second member (14) disposed adjacent and at least partially outside the first member (13), which is fixed to the shaft (33)" in the combination as claimed in **claims 6,14; and** "turning the second member in a first direction, while still gripping the first member, so as to rotate the shaft; and releasing the user's grip on the second member while rotating the first member in a second direction, freely, without the first member ever rotationally engaging the shaft and simultaneously gripping the rotating the handle in the first direction so as to continue to rotate the shaft" in the combination as claimed in **claim 17**, are not anticipated or made obvious by the prior art in the examiner's opinion. **For example**, Lin (6,012,359) discloses a device for turning a too bits (80), comprising a shaft (84); a handle (83) disposed on the shaft; a first member (10,20) freely rotatable about the shaft and a second member consisting the following elements: bearing (30), stems (40,50), plates (61,62), gearing members (70,71,72), pins (63) disposed adjacent the first member, which is fixed to the shaft (see figures 1,3,5). **However**, the art of record considered as a whole, alone or in combination fails to provide or suggest "a second member disposed adjacent and at least partially outside the first member, which is fixed to the shaft (33); **and step of** turning the second member in a first direction, while still gripping the first member, so as to rotate the shaft; and releasing the user's grip on the second member while rotating the first member in a second direction, freely, without the first member ever rotationally engaging the shaft and simultaneously gripping the rotating the handle in the first direction so as to continue to rotate the shaft".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
